Skills

Data Structures
Algorithms
Java
JavaScript
React
Node, ExpressJS
Mongodb
SQL
posthresSQL,
Springboot
TailwindCSS
Information architecture
Prototyping
UI design
Illustration
Interaction design

Tools

VS Code, Git, Git Bash, Jira

Software Developer

Emoneeds, Nov 20222 - Present (emoneeds.com)

• Designed and developed robust admin backend portal using Node.js, leveraging its asynchronous and event-driven architecture to ensure optimal performance and scalability.
• Implemented secure data storage strategies for sensitive user and patient information, utilizing both MongoDB and PostgreSQL databases to accommodate varying data types and access patterns.
• Collaborated closely with cross-functional teams, including front-end developers and UX designers,
• Integrated third-party APIs and services to enhance website functionality, such as Zoom Api's, ChatGPT etc
• Employed version control systems, such as Git, to ensure seamless code collaboration and maintain a structured development workflow.

Full Stack Developer

DU Coin, July 2023 (earn.du-coin.io)

• Developed a MERN (MongoDB, Express.js, React, Node.js) stack application from scratch, integrating frontend and backend components seamlessly.
• Implemented a user-level and referral system to allocate benefits based on user levels and referrals, fostering user engagement.
• Successfully incorporated blockchain technology into the application, enhancing payment security and transparency through the implementation of smart contracts for automated and validated transactions.

FullStack Mentor

Innomatics Research Labs, April 2022 – July 2022 (innomatics.in)

• Designed and developed robust backend solutions using Node.js, leveraging its asynchronous and event-driven architecture to ensure optimal performance and scalability for Order Tracking and Fulfilment.
 Implemented secure data storage strategies for sensitive user utilizing both MongoDB database to accommodate varying data types.
• Worked with a team of skilled professionals who helped me with their guidance

Springboot Developer

SymbioticNow, Dec 2021 – Jan 2022 (symbioticnow.co.nz)

• Providing one on one mentoring and training on full stack to the students
• Solving students doubts regarding the full stack projects
• Worked on few landing pages for the main website and updated other

Education & Learning

Master's in Computer Application (MCA)

Osmania University,Hyderabad India , Jan 2021 – Oct 2022

Bachelor's of Commerce (B.com(H))

IP University, Delhi Aug 2017 – Oct 2020

Web development Bootcamp by Angela Yu
March 2022

Machine Learning By Andre Ng
Dec 2021

Java Programming Masterclass By Tim Buchalka
Aug 2021

C programming (IIT kanpur)
feb 2021
